EZ Breathe

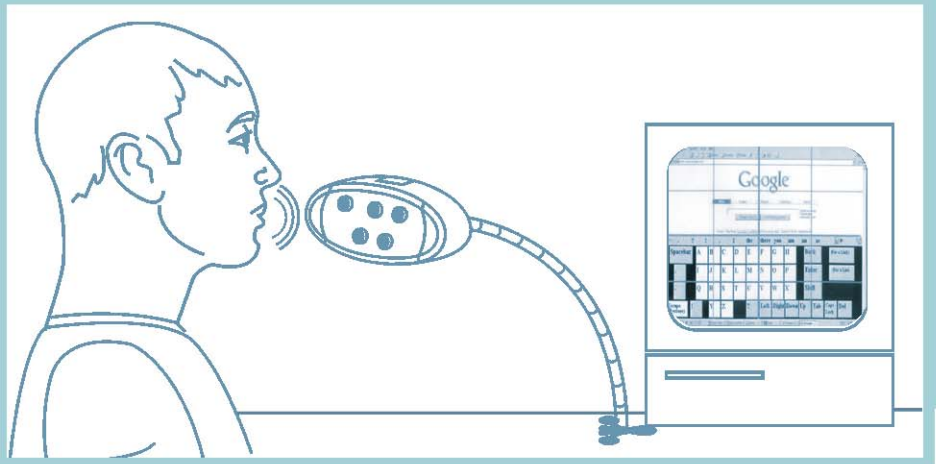

by Wind Jewel

Computer Control System

Breath life into your computer!

Individuals with limited dexterity may not be able to use a computer. Unfortunately, voice recognition technology is limited to aiding those who are able to speak. The EZ Breathe hands free computer interface enables a person to use a computer by simply exhaling and inhaling. This revolutionary device allows users to increase their independence and productivity both at home and on the job.

Benefits

- Increases productivity in those experiencing: paralysis from spinal cord injury, severe arthritis, strokes, amputations and other disabilities
- Delivers greater accuracy than voice recognition software
- Enables use of a PC or PDA without the use of hands
- Increases independence both at home and on the job

Features

- Functions without voice commands
- As simple to use as playing the harmonica
- Ready to use when computer is on
- Requires no batteries
